# SUPPORT ERIC KING

Eric G. King, a 30-year-old vegan anarchist, was arrested and charged with an attempted firebombing of a government official's office in Kansas City, MO in September 2014. Eric was charged with throwing a hammer through a window of the building, followed by two lit Molotov cocktails. The criminal complaint states that both incendiary devices failed to ignite. Eric was identified as a suspect by local police because he had previously come under suspicion for anti-government and anti-police graffiti.

On March 3, 2016, he accepted a non-cooperating plea agreement to one count of using "explosive materials to commit arson of property used in or affecting interstate commerce." Then almost three months later on June 28th, at the federal courthouse in Kansas City, Missouri, Eric King was sentenced to ten years, the statutory minimum and maximum for the charge he plead guilty to. His release date is June 2nd, 2023.

Since Eric's arrest and subsequent incarceration, he has been extremely isolated from his loved ones and has repeatedly been targeted by the guards, who have regularly put his safety in jeopardy. At CCA Leavenworth where Eric was held in pretrial detention, he was kept in segregation for 6 months at one point and was often subjected to stints in "the hole" after the guards targeted him. Despite these struggles, he continues to maintain his good spirits and resolve to see this situation through to the end. He also maintains his dedication to struggling for a world free of domination and oppression.
